

JSPS-sponsored Seminar on Concrete Technology
Co-organized by JSCE-VCA-HCMUT-VJCE

Japan's Experiences on Durability and Maintenance of Concrete Structures

Date Dec. 20, 2019 **Time** 13:00–17:00
Venue Hochiminh City University of Technology

Program

● Vietnamese interpretation will be available.

Time	Task	Speakers/Person in charge
13:00 – 13:30	Opening speech	Representatives from HCMUT JSCE VCA
13:30 – 14:10	Introduction of JSPS core-to-core program: Collaborative research network on standardization of design and construction for hot weather concreting based on Asian climate and materials	Dr. Asamoto (Japan)
14:10 – 14:30	Break	
14:30 – 15:45	Maintenance of concrete structures based on railway structure examples	Dr. Matsuda (Japan)
15:45 – 16:15	Current situation of utilizing fly ash in construction in Vietnam	Dr. Quoc (Shimizu Corporation)
16:15 – 16:55	Applicability of fly ash cement to mass concrete in hot weather	Mr. Mitani (Japan)
16:55 – 17:25	Free discussion	

Core-to-Core Program
