

## **Title of Paper Presented at the 10th International Conference on Tube Hydroforming**

First Author<sup>1</sup>, Second Author<sup>2</sup> and Others<sup>3</sup>

<sup>1</sup>Affiliation of first author, including country

<sup>2</sup>Affiliation of second author, including country

<sup>3</sup>List all affiliations in the same way

**Abstract: This guide is for people who want to submit full manuscript (4-10 pages) or extended abstract (2-3 pages).** This guide describes and demonstrates the required style for manuscript submitted for publication of the proceedings of TUBEHYDRO2022 in Matsue, Japan. The authors should be expected to read these instructions and follow the outline of this text. The text area for your manuscript must be 17 cm wide and 24.7 cm high. Do not place any text outside this area. This document is written in A4 size format (21cm × 29.7cm). Please do not change the document setting. Please begin with an abstract of up to 150 words giving a brief account of the most relevant contribution of your paper. The manuscript file and the copyright transfer form must be submitted through the web site <https://tubehydro.conf.it.atlas.jp>. You are supposed to combine them into one PDF file before submitting it.

**Keywords:** *List the keywords covered in your paper, not more than five.*

### **1. Introduction**

All manuscripts should be written in English. When receiving the manuscript, we assume that the corresponding authors grant us the copyright to use the manuscript for the proceedings of TUBEHYDRO2022. If authors should use tables or figures from other publications, they must ask the corresponding publishers to grant them the right to publish this material in their paper.

Use *italic* for emphasizing a word or phrase. Do not use boldface typing or capital letters except for section headings.

### **2. Styling of Manuscript**

#### **2.1 Typing style**

12-point font of Times Roman or Times New Roman, 44 lines per page are preferred in the text. (default setting in this document)

#### **2.2 Manuscript arrangement**

On the first page the following should be typed: 1) Title, 2) Authors, 3) Affiliation, 4) Abstract, 5) blank two lines and 6) Keywords. Following a blank line, 7) the main text, 8) Acknowledgement and 9) List of References. The entire text should not be more than six pages. Do *not* type page numbers.

#### **2.3 Tables and Figures**

Tables (refer with: Table 1, Table 2, ...) should be presented as part of the text, but in such a way as to avoid confusion with the text. A descriptive title should be placed above each table. Units in tables should be given in standard brackets, for example (MPa).

Figures (refer with: Fig. 1, Fig. 2, ...) also should be presented as part of the text, leaving enough space so that the caption will not be confused with the text. The caption should be self-contained and placed *below or beside* the figure. Generally, the best qualities of drawings or photographs are preferred within the limit of manuscript file size below. Color figures are welcome for informative or easily-understandable explanation of results.

## 2.4 Equations

Equations (refer with: Eq. (1), Eq. (2), ...) should be sited in the center of line. There should be one or a half line of space above the equation and one or a half line of space below it before the text continues. The equations have to be numbered sequentially, and the number put in parentheses at the right-hand edge of the text. Equations should be punctuated as if they were an ordinary part of the text. Punctuation appears after the equation but before the equation number, e.g.

$$2d \sin \theta = \lambda . \quad (1)$$

## 2.5 Size and format of manuscript file

The manuscript file should be smaller in size than 8MB, and prepared in word and PDF format.

## 3. Submission of Manuscript

The deadline for reception of the manuscript file is ~~April 30, 2022~~ June 30, 2022. The manuscript submitted after the deadline will not be received. The manuscript file and the copyright transfer form must be submitted through the web site <https://tubehydro.conf.it.atlas.jp>. You are supposed to combine them into one PDF file before submitting it.

For any inquiries about manuscript submission, please contact:

TUBEHYDRO2022 secretariat team  
E-mail: tubehydro@mt.mce.uec.ac.jp

## References

Citation of references should be made sequentially, in the form 1, 2) or 3-6). List of References should be attached. One reference number should correspond to one reference. Even if another reference of the same author is cited, allocate a different reference number and do not use the expression, “ibid”. A reference is described in the order: names of authors (no need of comma before “and”), the abbreviated name of the journal, volume number (year), page. Volume number should be expressed in bold type. The abbreviation of journals should follow the ISO/4 standard. When authors are 15 or less, all of the names should be given, instead of using “et al”.

### <Example of journal>

- 1) S. R. Pati and M. Cohen: Acta Metall. **17** (1969) 189-200.
- 2) W. Köster, T. Gödecke and D. Heine: Z. Metallk. **63** (1972) 802-805.

### <Example of book>

- 3) W. Hume-Rothery, R. E. Smallman and C. W. Haworth: The Structure of Metals and Alloys, (The Metals and Metallurgy Trust of the Institute of Metals and Institution of Metallurgists, London, 1969) pp. 336-342.

4) E. Houdremont: Handbuch der Sonderstahlkunde, 3. Aufl., 2. Bd., (Springer-Verlag, Berlin, 1956)  
pp. 934-939.

**<Example of Proceedings>**

5) C. Wagner: Steelmaking, The Chipman Conference, ed. by J. F. Elliott, (The M.I.T. Press,  
Cambridge, Massachusetts, 1965) pp. 19-25.

6) K. Abe and Y. Sato: Proc. 4th Int. Conf. on Rapidly Quenched Metals, ed. by T. Masumoto and K.  
Suzuki, (The Japan Inst. Metals, 1982) pp.19-25.

7) T. Yamada: Collected Abstracts of the 1999 Autumn Meeting of the Japan Inst. Metals (1999)  
pp.101-102.

## Copyright Transfer Form

Copyright to the article entitled:

Submission No.:

Paper Title:

Author(s):

is hereby transferred to the Japan Society for Technology of Plasticity, Tube Forming Committee.

However, the authors reserve the following rights:

1. Retain all proprietary rights other than copyright, such as patent right.
2. Reuse all or portions of the above paper in other works.
3. Reproduce, or have reproduced the above paper for the author's personal use or for company use, provided that the copies are not offered for sale.

To be signed by at least one of the authors (who agrees to inform the others, if any) or, in the case of a "work made for hire", by the employer.

Authorized Signature:

Print Name:
